

PHILCO RADIO-PHONOGRAPH MODEL 49-1404

(Supplement to Service Manual PR-1567, for Philco Radio-Phonograph Model 49-1405)

Model 49-1404 is identical to Model 49-1405, with the exceptions given in this supplement. Model 49-1404 uses the Model M-9 Philco Automatic Record Changer; the wiring diagram of this changer is given below, showing the pickup resistor load network. These

resistors are mounted on a terminal strip located underneath the changer motor board. For service information concerning the Model M-9 Automatic Record Changer, consult Service Manual Page 493.
