### *Deluxe features in a compact, economical set*

You've never heard such exciting performance, you've never seen such handsome beauty—that's the Explorer, the set you've longed to own! ● 4 valves, plus long-life "Westalite" Selenium Rectifier. Also 5 valve model for super reception in "weak signal" areas. ● Simple switch allows easy change from mains to battery operation. ● Costly circuit design achieves great sensitivity, sharp station separation and maximum reduction of interference, even on crowded channels.

Special heavy-duty A-B battery pack, which, without re-energising, lasts as long as any portable on the market. ● Durable and washable simulated leather case, with saddle stitched French edge. ● Light weight and taper shaped for easy carrying. ● Special new Rola 5" high flux density speaker of very latest design. ● Wood-acoustic cabinet with full rich tone. ● Clear station markings for every State. ● Built-in aerial. ● Automatic volume control.
