

Announcing  
② NEW  
PHILCO  
RADIOGRAMS

## Concerto

5-VALVE A.C. DUAL WAVE RADIOGRAM  
with 3-speed Automatic Record Changer

A delightful new-style radiogram available in rich walnut, rosewood or maple finishes. It's at home equally well in modern or conservative settings.

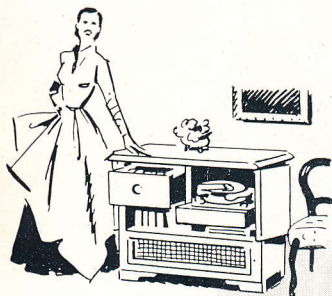

*Specifications include:* Amazing reception results from new design chassis using high performance miniature valves. 12" Rola speaker gives utmost acoustic performance. Microgroove or normal record changer takes mixed loads of 10" and 12" discs. Smart cabinet design allows for maximum record storage in underneath compartment.

# PHILHARMONIC

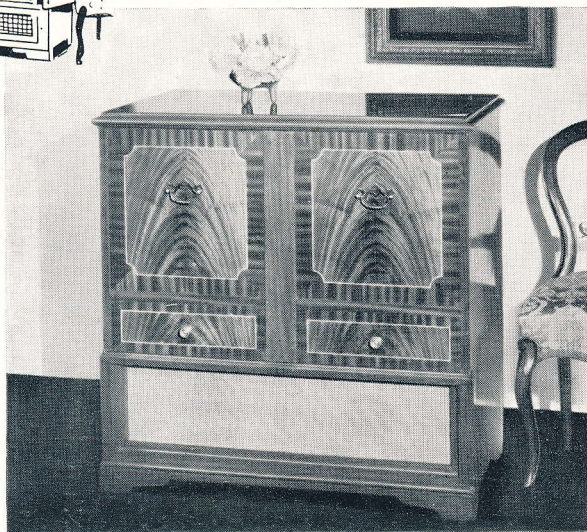

7-VALVE A.C. DUAL WAVE RADIOGRAM  
*with 3-speed Automatic Record Changer*

ALSO SPECIAL PHILCO INBUILT 2-SPEED TAPE RECORDER  
*as optional equipment at extra cost*

For superlative finish, breath-taking beauty and unsurpassed reception of radio programmes and multi-disc recordings, this masterpiece of radiogram design is a triumph for Philco technical and designing engineers.

*Specifications include:* Two chassis—one radio, one audio for perfect reception. Twin heavy magnet speakers give rich tonal reproduction of bass and treble. Push-pull audio system ensures distortionless reception. Record player for microgroove or normal discs incorporating "Telefunken" cartridge, allows mixed 10" and 12" playing. SPECIAL PHILCO INBUILT TWO-SPEED TAPE RECORDER, integrally part of the circuit, is optional equipment at extra cost.
