This is the Famous Philco Rechargeable Radio "A" Battery with Visible Charge Indicator

Philco Radio Batteries are shipped Dynamic—DRY but CHARGED. Their life doesn't start until the dealer pours in the Electrolyte.

Handsome Mahogany Finish for Living Room Service!

Here is a wonderful rechargeable Radio "A" battery in a mahogany finish rubber case, with visible charge indicators—complete for only \$17.50! This efficient radio battery gives you perfect radio "A" power and in addition it harmonizes with the furniture in your living room. You no longer need to have an ordinary ugly black battery box under your radio set. The Philco "A" battery is the cleanest and most convenient battery on the market.

The Charge Indicators Tell Everything!

No more bother! No more messy hydrometers! The visible charge indicators show exactly how much charge is left in your battery. This over-size Philco "A" battery requires charging only at long intervals and you always know just when to charge merely by glancing at the charge indicators. No danger of spilling acid on the rug, because the charge indicator is fastened permanently to the battery, always in plain sight!

Built for Long Service and Sold Under One Year Positive Guarantee!

The Philco "A" battery will stand up under hard usage and long hours of use. It will continue to give you wonderful service long after the ordinary battery must be discarded. This Philco radio "A" battery contains the famous Diamond Grid plates and quarter-sawed Separators that have made Philco automobile batteries so dependable and well known. A positive one year guarantee covers the Philco "A" battery, and it will actually last much longer.

A Marvelous Philco Radio "A" Battery!

Before you buy your radio "A" battery, ask to see this handsome Philco battery with the visible charge tester. A vast improvement over the messy, old-fashioned hydrometer. This is the battery that enables you to do clean, dry, intelligent charging safely in any room in your home.
