420 Lexington Avenue, New York City.

NEW PHILCO BABY GRAND SUPER. A "de luxe" edition of last year's Popular model, the world's fastest selling radio. A 9-tube balanced superheterodyne receiver, push-pull, with double-tuned input circuit. Thoroughly shielded and equipped with Philco's new improved electro-dynamic speaker, tone control and precise tuning illuminated station recording dial. Furnished with sensitivity switch which is kept at normal position in most cases but which when set for maximum increases power of receiver to extraordinary degree. Cabinet is beautifully designed in genuine American black walnut, with hand-rubbed lacquer finish.
