MANUFACTURERS

841-7 South Ninth Street

LOUISVILLE, KY.

Now Gather 'Round THE FIRESIDE for your favorite RADIO HOUR

No. 776 Radio Mantel

The Most Practical and Unusual Decorative Feature Ever Introduced

For years interior decorators and designers of furniture have striven to find a departure from the usual radio cabinet that just don't seem to fit your room.

Now without sacrificing the beauty or the "period" atmosphere your room expresses comes the Columbia Radio-Mantel to even further enhance its loveliness.

erodyne Balanced Radio—and perfection is just about realized. Ask to see the Columbia Radio Mantel.

DESCRIPTION

The Mantel-piece is made of selected quartered red gum wood finished either in Walnut color or in Glazed Antique Ivory Enamel as illustrated.

Sizes are—Shelf 50 in., Body 48½ in., Height 45¼ in. The doors in the center panel divide and slide to each side thus exposing the Radio Panel. The Facing around fireplace and Hearth are of wood Marbled Black and Gold. The Fireplace opening is 30 in. wide x 30 in. high and 9 in. deep. The logs shown are imitation Birch and conceal an ingenious lighting device, which produces the flickering effect of a fire. The Andirons are black finish with brass plated tops. Other designs of logs and andirons can be used.

Equipped with No. 80 Philco 4 tube balanced superheterodyne Radio with electric dynamic speaker. *Operated only with alternating current.*

No. 776 Radio Mantel

*The Most Practical and Unusual
Decorative Feature Ever Introduced*

For years interior decorators and designers of furniture have striven to find a departure from the usual radio cabinet that just don't seem to fit your room.

Now without sacrificing the beauty or the "period" atmosphere your room expresses comes the Columbia Radio-Mantel to even further enhance its loveliness.

*A Happy Combination of the
2 Most Important Home Features
MUSIC and a FIRESIDE!*

The charm of any room is heightened by an open fire with its crackling logs and cheerful light. This effect has been cleverly reproduced by a flickering light within the logs, and when this is framed with a beautifully designed mantel, it becomes in itself one of the most decorative features of the room.

Now think of having built right into this already priceless feature a PHILCO Superheterodyne Balanced Radio—and perfection is just about realized. Ask to see the Columbia Radio Mantel.
