

If you haven't been able to find a small set that gives you the brilliant performance you want . . .

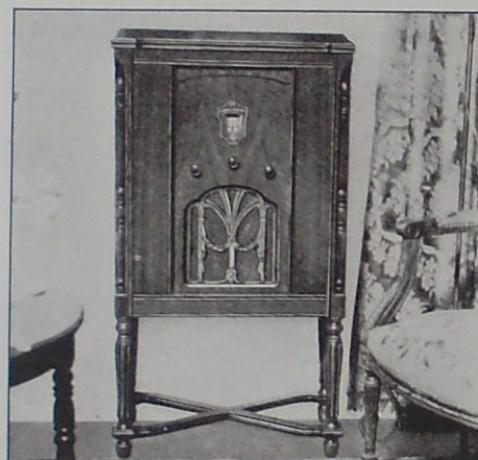

General Electric has good news for you.

The new Junior, an 8-tube screen grid superheterodyne, with full-size dynamic speaker. Complete with Radiotrons, \$72.50

You can also buy the Junior with General Electric clock. Complete with Radiotrons . . . \$84.50

The new Junior Console, 8-tube screen grid superheterodyne, full-size dynamic speaker. Complete with Radiotrons, \$99.50

Both sets so good that in a masked test they were unanimously chosen over other small sets.

The Junior can be tucked in any small spot. And the bronze handle makes it easy to carry from room to room, or out on porch. So light, it goes along on vacations.

See how little space the Junior Console occupies. Compact, snug—harmonizes beautifully with smaller homes and apartments.

BEFORE buying any radio, see and hear these new sets, and larger G-E sets which are the last word in radio performance, at nearest G-E dealer's. Convince yourself of the superiority of General Electric Full Range radios.

Your G-E dealer will give easy installment terms. He will tell you about the new G-E Certified Inspection Plan, entitling you to many service privileges.

Listen to the G-E program, every Saturday night, over nation-wide N. B. C. network.

See your G-E Radio Dealer or write Merchandise Department, Section R-725, General Electric Co., Bridgeport, Conn.
